

ELLIOTT NIXON

021 2647 121 | elliottn33@gmail.com

PROFESSIONAL SUMMARY

An enthusiastic and highly motivated individual seeking a challenging new career after four years in the chemistry industry. Working in this field has developed my attention to detail and analytical ability when faced with complex tasks and customer requirements. I now want to use these skills in a new field by shifting into software development.

To kick-start this career move, I have completed a Postgraduate Certificate in Information Technology which covered software and web development using Java, Javascript, NodeJS, SQL and more. I am eager to build upon this knowledge by entering the industry as a junior developer.

CORE SKILLS:

- | | |
|----------------------|-------------------------------|
| - Java | - Driven to learn and develop |
| - JavaScript | - Teamwork |
| - NodeJS | - Self-motivated |
| - Express | - Attention to detail |
| - SQL | - Administration |
| - HTML | - Troubleshooting |
| - CSS | - Problem-solving |
| - Git | - Critical thinking |
| - HPLC | - Communication |
| - Gas Chromatography | - Organisation |
| - Enzymatic analyses | - Customer Service |

EMPLOYMENT BACKGROUND

AsureQuality

Laboratory Analyst

April 2018 - Present

- Validate and maintain new equipment and procedures
- Quality check and authorise results to customers and MPI
- Maintain, assess and revise analytical methods
- Perform analytical testing and ensure all results produced are valid, accurate and precise
- Participate in audits (internal and external) including investigating and responding to corrective actions and recommendations

Laboratory Technician

May 2016 - April 2018

- Perform analytical testing of food and wine
- Sample preparation
- Ensure equipment is calibrated
- Environmental monitoring

ACADEMIC EDUCATION

University of Auckland

PostGraduate Certificate in Information Technology (PGCertIT), 2019

- Front-end development (HTML, CSS, JavaScript)
- Back-end development (Java, NodeJS, SQL)

Postgraduate Diploma in Forensic Science (PGDipForensics), 2015

- Analytical methods with quality standards suitable for use in criminal courts
- Chain of custody procedures

Bachelor of Science (BSc), 2014

Chemistry

- Analytical Chemistry
- Instrumentation

Psychology

- Cognitive Psychology
- Problem-solving
- Decision-making
